

Dundee Beach
Fishing Charters
(Special Highlight: Black Jewfish)

Introduction

Located at the north eastern coast of Australia, approximately 130km southwest of Darwin, is the Dundee Beach. Its name is believed to be in reference to the film “Crocodile Dundee”. The main attraction of Dundee Beach is fishing!

At Dundee Beach, you can experience a wide variety of fishing targets. From inshore reef fishing targeting Black Jewfish, Golden Snappers, and tidal river creeks for Barramundi, to further offshore for Pelagics such as Trevallies, Queenfish, Tuna, and reef species like Coral Trout.

Accommodation is just next to the beach where you will be staying for the duration of your trip. Breakfast and lunch on board is included. Dinner will be optional at the nearby restaurant at additional costs or self-cook option is available (additional costs to organize ingredients for BBQ or self-cook).

Whether you are a beginner at fishing or the hardcore enthusiast, Dundee Beach Fishing Charters will cater to your needs.

SEASON

Black Jewfish is a prime target in Dundee Beach. Whether you are bait or lure fishing, they hit super hard and run for the reef to cut you off. Target them all year round in cloudy coastal waters, inshore reefs, tidal rivers, and estuaries. It is good fishing all year round for them.

Targeting Barramundi in Dundee beach is also great during rainy runoff seasons from March to May or the build up season from October to early December.

Bluewater fishing in Dundee beach is amazing all year round. Venturing offshore, you'll target fishes like Golden Snappers, Coral Trouts, Bluebone (Parrotfish), lots of pelagic fishes like Queenfish, Trevallies, Mackerel, and Tuna.
