

*Barra & Bluewater*  
**at Dhipirri Barra & Sportfishing Lodge**

# Introduction

Enjoy the finest saltwater lure fishing experience targeting Barramundi, one of the main attractions at Dhipirri Barra & Sportfishing Lodge.

Situated at the Northern Coast of Australia, in the region of Arnhem Land, the Dhipirri Barra & Sportfishing Lodge is one of the most sought after Barra fishing haven in Australia. The lodge was constructed by the coast in the outback of Kakadu National park. Due to its remote location and abundance of creeks and rivers around the area, as well as countless target species of fishes available, anglers constantly return to Dhipirri for the world class fishing experience. Dhipirri Barra & Sportfishing Lodge is the only charter lodge that has exclusive rights to operate in the area.

Although the main target for anglers here is the Barramundi, you will have an absolute blast when fishing the off shore bluewaters. Trevallies, Queenfish, Golden Snapper, Coral Trout, Spanish Mackerel, and Long tail/Mack Tuna are the usual bluewater targets to name a few.

With 5 professional skippers manning 5 boats, with each boat holding up 3 anglers at a time, the trip can easily cater for large groups of up to 15 people at a time or smaller groups alike. Skippers will be assigned to each group of 3 pax per boat.

A private flight will be chartered to land at Dhipirri's private airstrip, which is only a 5-minute drive to the lodge. The lodge at Dhipirri facilitates 3 anglers to a fully air-conditioned cabin, with two separate guest bathroom areas with solar hot water. A complimentary daily laundry service is provided for all guests. There is a dining and bar lounge which has top class dining and drinking options. This is where anglers have their daily meals (except for lunch on the boat).

## SEASON

### **Dry Season (June to November):**

Targets: Pelagics such as Queenfish, Mackerel, Trevally, Blue-water fishes. Barramundi can still be targeted.

### **Wet Season (November to May):**

Target: Mainly Barra during the run off when rain flushes down the creeks to the sea. Up to 200 Barramundi a day .
